### Artwork

We accept vector graphics in EPS, AI or PDF format in PC platform. Please convert text to outline, path or curve. Artwork charge: \$60(V) per hour will apply if artwork requires reconstruction or touch-up.

### Artwork Proof

PDF artwork proof will be emailed to you as specified on your PO. Please allow 1-3 days after receipt of your artwork and pre-payment.

### Backorder

If an item is backordered, we will notify you via e-mail when item is available. If shipments scheduled more than 30 days after the order date, we will notify you and give you a cancellation option. Filling backorders: Backorders will be filled before new orders items become available.

### Cancellation and Returns

Blank items may be returned with 30 days for credit but is subject to \$25.00(Z) service charge plus 20% restocking fee of the total cost of the order plus freight charges if applicable. Orders with imprint can be cancelled only prior to imprint production. Imprinted and shipped items cannot be returned unless authorization is given by factory. Shipping charges, setup charges, imprint charges, PMS match charges, and art charges are not refundable. All returns must be authorized by the factory and include RA number. Please call for factory procedures.

All orders must be faxed, emailed or mailed in. Order confirmation will be emailed to you within 1-2 days. If you did not received order confirmation in 2 days, contact us immediately.

### Over-runs and Under-runs

All orders will be subjected to 5% over-runs or under-runs consistent with industry standard. All over-run are subject to additional item, imprint and freight charges.

### Payment Method

All new customers are asked to pre-pay in full for the first 3 orders. Terms can be established through credit reference and background check after 3 orders. 50% deposit is required for all overseas orders before production begins regardless if credit terms are established. We accept Visa, Mastercard, Discover credit card or check (copy of check needs to be provided to start paper proof and production).

### PMS Color Match

Due to variation of imprint surface (e.g. dark colored items) we cannot guarantee exact ink color match on merchandise. If require, we will print a layer of underlay-white for exact match and the white layer will be considered as additional color imprint.

### Policies

Individual product descriptions are claims of the manufacturer and/or distributor and are not guaranteed accurate. Prices are subject to change without notice. We reserve the right to refuse to sell to anyone for any reason.

### Production Time

Standard  
 Un-imprinted order: 1-3 days after payment received unless terms were given.  
 Pre-production samples: 3-5 days after artwork emailed is approved.  
 All orders: 7-10 working days after email proof or pre-production sample approval. Generally production time is based on quantity ordered and the number of color imprints.

### Repeat Order

Please include previous P. O. number, invoice number and artwork to verify imprint information. Artwork approval is required for repeat orders. Any changes in repeat artwork require a new setup charge.

### ANSI / ISEA 107-2004 STANDARD

ANSI stands for American National Standards Institute. Together with ISEA, International Safety Equipment Association developed a standard for high-visibility clothing. They are non-governmental agencies but this particular standard has been adapted by many states. It establishes many details used in the production for high visibility garments. There are 3 classes of apparel involved.

#### CLASS I

Lower visibility requirements in environments where traffic doesn't exceed 25MPH.

Examples of workers in CLASS I:

- People retrieving shopping carts from parking lot
- Parking lot attendants
- Workers exposed to warehouse equipment traffic
- Sidewalk maintenance workers

#### CLASS II

Required when worker's attention is distracted from coming traffic and tasks are done where traffic speed is between 25-50MPH. Also intended for use in work places where greater visibility is required and when inclement weather conditions and complex background is present.

Examples of workers in CLASS II:

- Accident site investigators
- Forestry operation workers
- Roadway construction workers
- Airport baggage handlers
- High volume parking crews
- School crossing guards
- Airport ground crews
- Law enforcement personnel
- Survey teams
- Cargo loading operators
- Railway operators
- Utility workers
- Emergency response crews
- Recycling operators
- Waste workers

#### CLASS III

Required where traffic speed exceeds 50 MPH, also where high risk tasks are performed and where the workers must be easily identifiable as a person through a full range of motion at a minimum of 390 meters (1280 feet). Night crew are especially required.

Examples of workers in CLASS III:

- Emergency response crews
- Utility workers
- Survey teams
- Roadway construction workers

## California Proposition 65

All products shipped by Jangoline into the State of California are subject to Proposition 65 ("Prop 65") or The Safe Drinking Water and Toxic Enforcement Act of 1986. "Prop 65" was created through the ballot initiative process and was intended to protect California citizens and the State's drinking water from a State determined list of over 850 chemicals that are "known" by the State to cause cancer, reproductive harm, or birth defects. This list and other information regarding "Prop 65" can be accessed at <http://oehha.ca.gov/prop65.html>.

Prop 65 requires that a "clear and reasonable warning" be provided by a Person/Company while doing business, who manufactures, produces, assembles, processes, handles, distributes, stores, sells, or otherwise transfers a consumer product which he or she knows to contain a chemical known to the state to cause cancer or reproductive toxicity to any person to whom the product is sold or transferred.

The lead state agency handling Proposition 65, the Office of Environmental Health Hazard Assessment (OEHHA; [www.oehha.ca.gov](http://www.oehha.ca.gov)), has established safe harbor levels which include No Significant Risk Levels (NSRLs) for cancer-causing chemicals and Maximum Allowable Dose Levels (MADLs) for chemicals causing reproductive toxicity for many of the 850 chemicals listed under Proposition 65. Exposure levels and discharges to drinking water sources that are below the safe harbor levels are exempt from the requirements of Proposition 65. A document that provides the status of OEHHA's adoption or development of NSRLs and MADLs is available below.

Because we cannot test every piece of every order that we ship to California for every one of the Proposition 65 listed 850 chemicals, you may continue to have concerns about compliance with Proposition 65. If so, then the safest option is to include a label on each product that may ship to the State of California which we will do free of charge upon request. The label will read as follows and will ensure full compliance with California Proposition 65 requirements:
